A proven pipeline that puts your business development on autopilot. Every opportunity scored, every requirement extracted, every draft written and designed — before you ever open the RFP. Built for firms pursuing government & institutional contracts.

HOW IT WORKS

1 You choose.

A curated weekly digest of pre-vetted, scored opportunities lands in your inbox. Reply with the one you want.

2 We fetch.

The pipeline pulls the full RFP and extracts every submission requirement into a clean checklist.

3 We draft.

A complete proposal is generated in your voice — credentials, proof points, and pricing already in place.

4 We deliver.

A branded proposal draft and requirements checklist land in your Google Drive. The hard part is done.

WHAT YOU GET

- **Weekly scored digest** matched to your certifications and sector
- **Full RFP extraction** — every requirement into an actionable checklist
- **Complete branded proposal draft** written in your voice — every draft arrives designed
- **You finalize and submit** — we deliver everything else

ENGAGEMENT TIERS

Starter 1 digest track · Full extraction + branded draft · Requirements checklist included

Growth 2 digest tracks · Branded proposals + presentations · Up to 3 RFP drafts / mo

Done-For-You 2–3 digest tracks · 5 RFP reviews / mo · Monthly meeting to review your digest

Engagements start at \$750 / mo — final pricing scoped on your consult. Setup deposit applied toward month one; retainer covers ongoing operation and delivery. One branded draft and requirements checklist per engagement — review, finalization, and submission rest with the client.
